ESL Happenings...

On Friday, January 6th, ESL students at the Skills Center participated in a Let's Talk Friday activity. Students were given different survey questions, such as; "What's your favorite animal?" or "How many pairs of shoes do you have?"

They began by answering the survey question themselves and writing their answer down on their paper, then they went around and talked to as many other students as they could and wrote their answers down on their survey paper.

CTE IN THE NEWS....

Photovoltaic students participated in a project for Evans Community Adult School. It was proposed by Principal Carl Badeau to put solar electricity on a guard enclosure located in the Evans Community – Adult School parking lot. The system is designed to power a fan for air circulation, lights so the enclosure can be used at night, and a charging station for phones.
