The LAUSD emergency notification system is prepared to send over one million simultaneous phone calls, emails and texts in times of need.

If you need to update your contact information, employees are to visit <http://ess.lausd.net> and include at least one cell phone number, which will be kept confidential. Parents are to visit the Main Office of your child's school to update contact information, as phone numbers and email addresses must be updated in person. Before the end of the school year, the District will begin sending text messages to all cell phones as an additional communication method with parents and employees.
